### **ABOUT EDAS**

eDas is a cutting-edge system that's based on the AI in processing the applications. In general, there are two types of applications:

- Invoice
- COO

Also, during submission, user can request for the COO to be attested along with the Invoice. Even though the AI will handle applications automatically, but there are certain cases that the manual attention is needed.

This user manual will guide you with the detailed steps to handle the manual approval for applications.
