**H.H. Sheikh Khalifa Bin Zayed Al Nahyan**  
President of the United Arab Emirates

**H.H. Sheikh Mohammed Bin Rashid Al Maktoum**  
Vice President and Prime Minister of the UAE and Ruler of Dubai

**H.H. Sheikh Mohammed Bin Zayed Al Nahyan**  
Crown Prince of Abu Dhabi and Deputy Supreme Commander  
of the UAE Armed Forces

“The United Arab Emirates will continue with its cultural approach to dealing with the outside world; its call for truth; for justice for the oppressed; for building bridges of love, harmony and cooperation between different peoples in the world; and for all mankind to live in peace and prosperity.”

**His Highness Sheikh Khalifa Bin Zayed Al Nahyan,**  
President of the United Arab Emirates

“Our aid has humanitarian objectives only; it is never governed by politics or limited by the geography, race, color or religion of the beneficiary. We provide humanitarian capital and are a major relief station for the poor; we do not hesitate to help and support the brother, the ill-fated friend or the needy wherever they are. This is our message to the world, and this is the United Arab Emirates.”

**His Highness Sheikh Mohammed Bin Rashid Al Maktoum,**  
Vice President and Prime Minister of the UAE and Ruler of Dubai

“When formulating its approach to providing foreign aid, the United Arab Emirates has adopted its idea of sustainable development from the foundations set by the late Sheikh Zayed bin Sultan Al Nahyan, (may God have mercy on him); thus the vision upon which our nation has been built is being elevated to a global level. This approach towards human development has been central under the leadership of His Highness Sheikh Khalifa bin Zayed Al Nahyan, and it aims to improve the welfare of all mankind.”

**His Highness Sheikh Mohammed Bin Zayed Al Nahyan,**  
Crown Prince of Abu Dhabi and Deputy Supreme Commander of the UAE Armed Forces

## MESSAGE

**His Highness Sheikh Mansour Bin Zayed Al Nahyan**  
Deputy Prime Minister and Minister of Presidential Affairs

Since the first year of the creation of the United Arab Emirates (UAE), His Highness Sheikh Zayed bin Sultan Al Nahyan, God rest his soul, gave his directives to create Abu Dhabi Fund for Development (ADFD) to provide support for countries in need. His Highness Sheikh Khalifa bin Zayed Al Nahyan, UAE president, and his brothers Their Highnesses members of the UAE Federal Supreme Council and Crown Princes, reaffirm that this approach has been maintained for 44 years and the momentum continues to build.

Throughout the last four decades, the UAE has provided generously in the form of assistance, grants and loans, contributed through the launch of hundreds of projects in dozens of countries. The projects cover various fields, including development, infrastructure, poverty alleviation, healthcare, response to natural disasters, refugees and internally displaced people IDPs, sustainability and job creation.

As a result of these efforts and heartfelt giving, the UAE has become a leader in the provision of humanitarian aid, as well as being provisionally ranked in first position for Official Development Assistance as a percentage of the Gross National Income (ODA/GNI), according to the Development Assistance Committee of the Organization of Economic Cooperation and Development (DAC/OECD).

This report illustrates, with absolute transparency, the volume of assistance and development projects funded by the UAE across the world. It also highlights the support that the UAE has given to the Arab people living in the countries affected by destructive warfare, forcing millions of people to flee their homes, thus becoming refugees and IDPs. It is our moral and humanitarian duty to sustain these displaced people during their time of need. The total humanitarian aid from the UAE to those affected in the Syria crisis reached AED 1.93 billion during the period 2012 – 2014.

The UAE views its humanitarian aid to other countries as a message, responsibility, and a duty, which motivates us to continue to provide, and increase our support, and building effective partnerships. This leadership role necessitates that the UAE will remain committed to implementing sustainable development programs, in addition to supporting the developing countries in achieving their Millennium Development Goals (MDGs).

I would like to express my deep appreciation for the great work done by the Ministry of International Cooperation and Development (MICAD), and for their efforts exerted in producing this report.

**Mansour Bin Zayed Al Nahyan**  
Deputy Prime Minister and  
Minister of Presidential Affairs

## FOREWORD

**Sheikha Lubna Bint Khalid Al Qasimi**  
Minister of International Co-operation and Development

I am proud to report that 2014 was another landmark year for the UAE in terms of foreign assistance. Not only was the country able to maintain its position as the largest donor in the world in terms of Official Development Assistance (ODA) as a percentage of Gross National Income (GNI), but we were also able to start moving UAE aid forward in a more integrated manner.

While the amount of aid that we give is important, it is not as important as how we provide it. With this in mind, one of MICAD's primary goals is to ensure that UAE foreign aid is channelled in the most impactful manner possible. In 2014, we launched various initiatives in a move to consolidate the impact of UAE foreign aid.

One such initiative was convening the UAE Humanitarian Committee, which aims to combine the collective expertise of UAE humanitarian responders in order to facilitate, oversee and coordinate the country's humanitarian aid. This Committee was formed by our cabinet in 2014 and reflects the UAE's commitment to adopt new working modalities to achieve its humanitarian goals. It also reflects an appreciation of the fact that the greatest contributions come through cooperation and collaboration.

Another major accomplishment for the UAE in 2014 was being named a participant member of the Organisation for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC). As well as allowing the UAE to attend high-level and senior-level meetings as well as meetings of the DAC subsidiary bodies, this status gives the UAE a seat at the table in international development forums and global recognition as a world-class donor.

The year 2014 also saw the start of a major effort, supported by the highest level of government, to transform the UAE foreign aid system by formalizing the UAE Foreign Assistance policy and strategy. Through this policy and strategy, the UAE will strive to find innovative solutions to the increasingly complex task of bringing communities out of poverty and providing humanitarian relief.

This report details the top countries, sectors and Millennium Development Goals to have received UAE foreign assistance in 2014, with a breakdown of the activities of individual donor entities, as well as outlining some of the new initiatives and innovative ways in which the UAE provided aid in 2014. The report will also delve into detail on the individual UAE projects, including humanitarian assistance to the Syria crisis and development support to Egypt.

On this occasion, I would like to thank the UAE donor organizations for their hard work and congratulate them on the relief and support that they have provided for countless people around the world.

With heartfelt thanks,

**Lubna Bint Khalid Al Qasimi**  
Minister of International Co-operation and Development

In 2014 the UAE spent

# AED 22.64 billion

(US \$6.16 billion) on foreign aid, maintaining its position as the largest donor in the world in terms of ODA/GNI.

## EXECUTIVE SUMMARY

In 2014 the UAE proved the endurance of its generosity, disbursing a total of AED 22.64 billion (US \$6.16 billion) as foreign aid through 39 donor entities, and maintaining its position as the largest donor in the world in terms of Official Development Assistance (ODA) as a proportion of Gross National Income (GNI).

Of the 150 countries that received foreign assistance from the UAE in 2014, 114 countries are eligible to receive ODA, including 44 least developed countries (LDCs). The majority, 86.4 per cent, of UAE funds were disbursed to development projects while 10.7 per cent were disbursed as humanitarian aid and 2.9 per cent was disbursed as charitable assistance. In addition to this, UAE donors committed a further AED 10.88 billion (US \$2.96 billion) in support of future development projects.

**ODA/GNI:** The United Nations General Assembly passed a resolution urging developed countries to contribute at least 0.7 per cent of their gross national income as ODA to developing countries. In 2014, the UAE surpassed this target for the second year in a row, reaching an estimated 1.26 per cent of ODA/GNI, as AED 19.08 billion (US \$5.19 billion), or 84.3 per cent of the country's foreign aid has been recorded as ODA.

**Bilateral and Multilateral:** In 2014, 95.6 per cent or AED 21.65 billion (US \$5.89 billion) of total UAE foreign aid was disbursed as bilateral assistance, while 4.4 per cent or AED 1.00 billion (US \$269.9 million) was disbursed through multilateral channels.

**Grants and Loans:** More than 90.0 per cent or AED 20.40 billion (US \$5.55 billion) of total UAE disbursements in 2014 were given as grants, while the remaining AED 2.25 billion (US \$611.8 million) disbursements were provided as concessional loans.

**Sectors:** In 2014, UAE donor entities supported projects in 19 different sectors. The largest sector of UAE activity was commodity aid, receiving AED 6.91 billion (US \$1.88 billion) or 30.5 per cent of total UAE aid. The second most funded sector was infrastructure development, which received AED 3.76 billion (US \$1.02 billion) or 16.6 per cent of total disbursements.

**Income-level Groups:** In 2014, 66.2 per cent or AED 14.98 billion (US \$4.08 billion) of UAE foreign aid supported lower middle-income countries, while AED 1.17 billion (US \$318.8 million) or 5.2 per cent of total funds supported 44 least developed countries (LDCs).

**Geographical Distribution:** Africa received AED 14.68 billion (US \$4.00 billion) or 64.8 per cent of total disbursements. Asia received 22.6 per cent or AED 5.12 billion (US \$1.39 billion) of aid disbursed in 2014.

**Donors:** The UAE Government, which is comprised of both federal and local government entities, was the largest UAE donor in 2014, comprising 65.0 per cent of total UAE assistance or AED 14.72 billion (US \$4.01 billion).

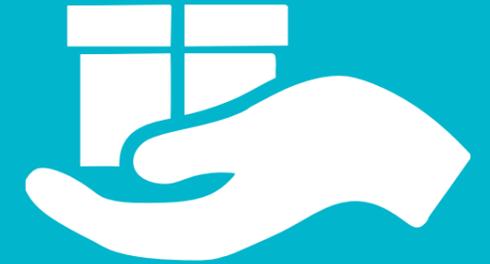

**Funding Sources:** UAE foreign aid donors receive their funding from either official or private sources or, in some cases, from a combination of both. In 2014, 95.0 per cent or AED 21.51 billion (US \$5.86 billion) of total UAE foreign aid came from official sources, while 5.0 per cent or AED 1.13 billion (US \$307.1 million) came from private sources.

**Commitments:** In 2014, the UAE committed AED 10.88 billion (US \$2.96 billion) in grants and loans to be disbursed beyond 2014. Of the commitments made in 2014, 70.2 per cent or AED 7.64 billion (US \$2.08 billion) were allocated to support ODA-eligible countries.

## SECTION 1

# Geographic Distribution of UAE Foreign Aid

This section provides information on the geographic distribution of UAE foreign aid in 2014 by region, highlighting the countries that received the largest proportion of UAE foreign aid.

The following countries were among the top recipients of UAE foreign aid in 2014:

**Egypt, Jordan, Morocco, Palestine, Pakistan, Afghanistan, Yemen, Somalia, Tunisia, Philippines and Iraq.**

Dubai Cares' programs support educational initiatives as a way out of poverty.  
(Source: Dubai Cares)

 (Source: The Coordination Office of UAE-funded Development Projects in Egypt)

Africa was the continent to receive the largest portion of UAE Foreign Aid in 2014, AED 14.68 billion (US \$4.00 billion). Within Africa, North Africa was the largest regional recipient. Egypt, Morocco, Libya, Tunisia, Sudan and Algeria were the top recipient countries, with the large sums given to Egypt and Morocco accounting for the bulk of assistance to the region. East Africa came a distant second in terms of African regions, with Somalia, Ethiopia, Uganda and Kenya as top recipient countries. West Africa was the third largest region in Africa to receive UAE foreign aid, with Niger, Mauritania and Ghana as top recipient countries. The dominance of aid to North Africa came from the significant amounts of aid disbursed to Egypt and Morocco.

# UAE Water Aid (Suqia)

Drilling wells in some villages in Afghanistan within the UAE Water Aid initiative. (Source: Emirates Red Crescent)

In 2014 His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, launched the 'UAE Suqia' initiative to provide clean water to five million people worldwide. The initiative will be implemented through digging wells, as well as providing water pumps and water purification equipment around the world. The initiative consists of a fundraising campaign, to be held during the Holy Month of Ramadan and the formation of a water aid foundation. The UAE Suqia Campaign aims to provide clean water to five million people worldwide in cooperation with the UAE Emirates Red Crescent (ERC) and other charity organizations nationwide, as well as private sector and media.

### THE FOUNDATION

Sheikh Mohammed also announced plans to form the UAE Water Aid (Suqia) Foundation for later in 2015. Managed by Dubai Electricity & Water Authority (DEWA), UAE Water Aid is slated to be a non-profit organisation with goals to provide access to clean water to people in need across the world. To achieve this target, the Foundation will support global communities by providing effective pure water solutions, and promote R&D in solar energy-powered desalination, purification and management of water. In addition, the Foundation will form global partnerships and commit to investments in projects and technologies to support its prime goal of providing water to all those in

need. The foundation will focus on water sustainability and innovation research, and a US\$1m (Dh3.6m) award to find sustainable and innovative solutions for water purification using solar energy.

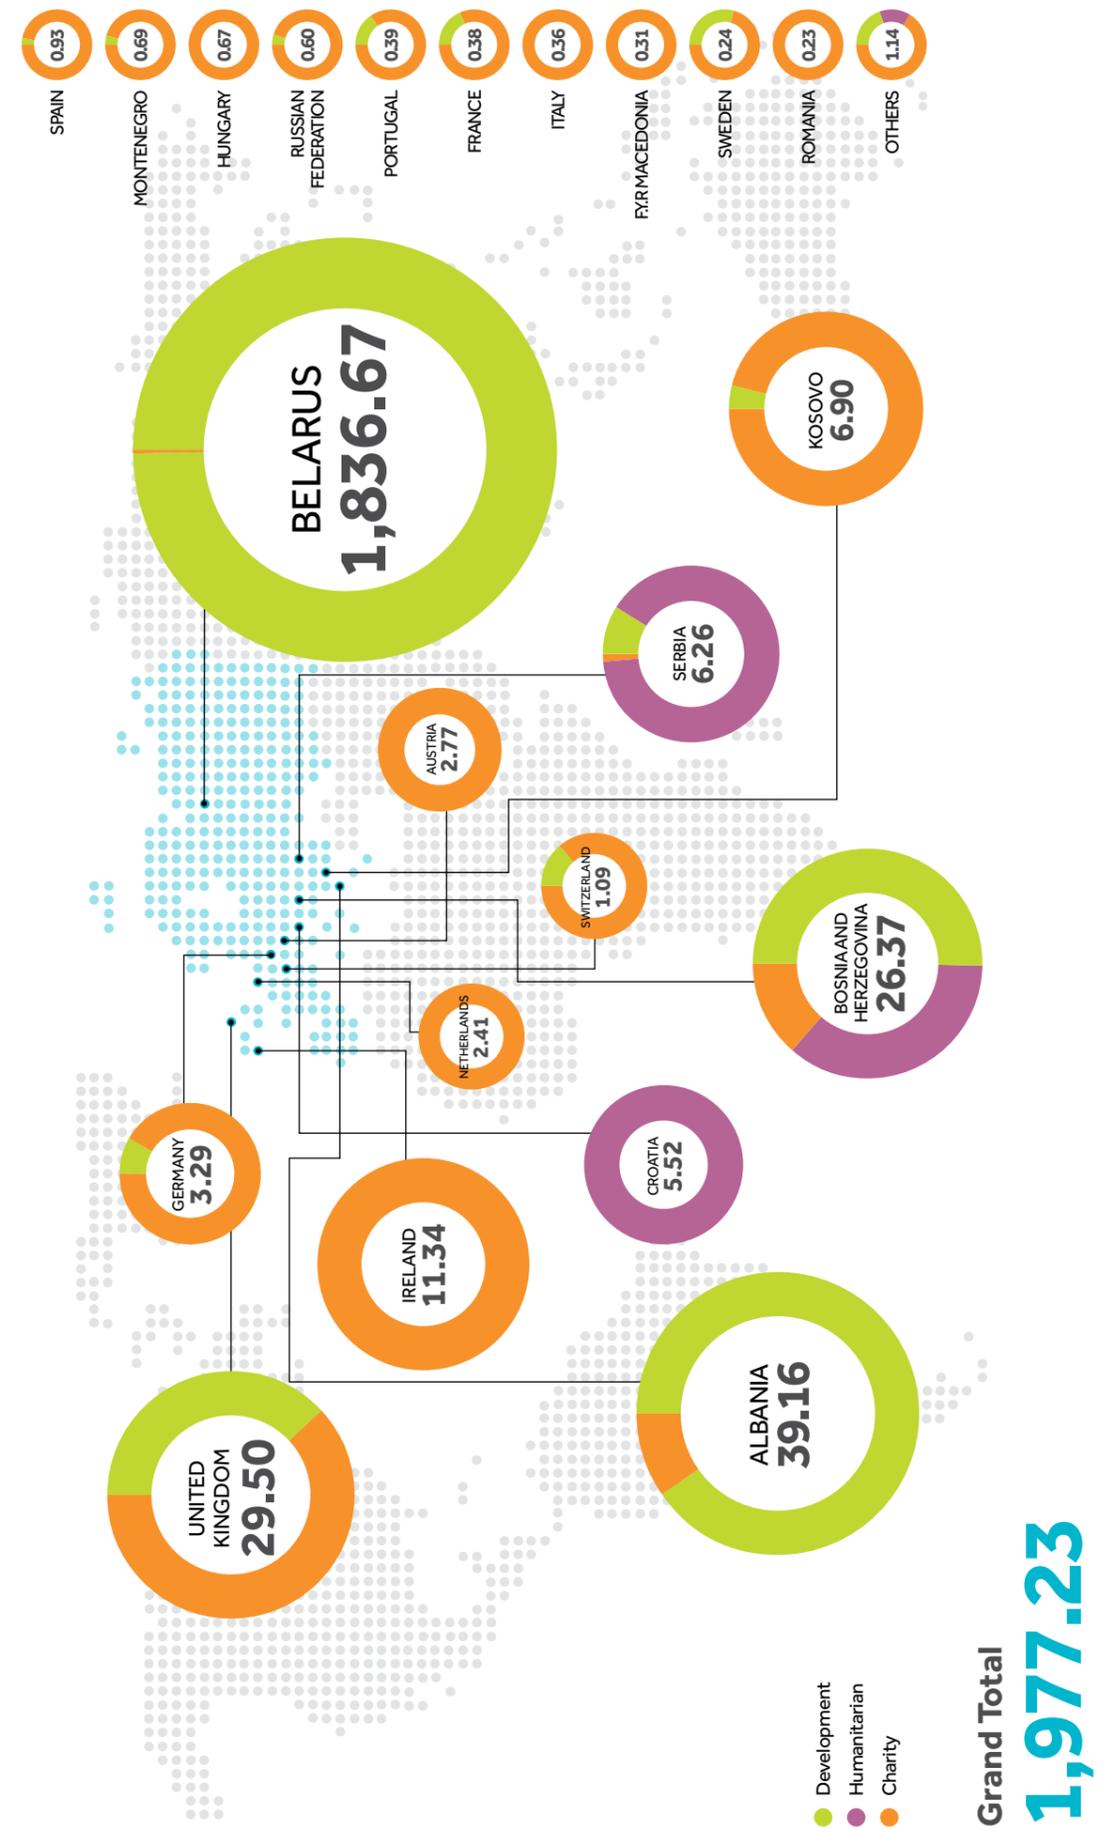

### RECIPIENT COUNTRIES

Afghanistan was one of the first countries to benefit from the project. Seventy-three wells have been drilled, providing aid 15,960 people in areas that have the most difficulty accessing water. In the province of Erbil, in Iraqi Kurdistan, ERC drilled four boreholes to help 150,000 people, with work on a fifth under way. The water will be pumped to reservoirs with a capacity of 120,000 cubic meters to serve the province. In Tanzania, the ERC drilled 20 wells to provide fresh water to 40,000 people in about 27 villages in the region of Loliondo. The organization also drilled 50 wells in six states in Ghana, benefiting 50,000 in areas with severe drought, while in India 30 wells were drilled in four states for the benefit of 12,000 people.

The UAE Water Aid Foundation distributed half a million bottles of clean drinking water to people in Palestine. Following the escalation in violence over the summer in the Gaza strip, Sheikh Mohammed bin Rashid, instructed the organization to focus on Gaza and provide clean drinking water. Daily flights were dispersed to Amman with onward transmission to Gaza, carrying 150 tons of aid.

# EGYPT

In 2014, for the second year in a row, Egypt was the largest single recipient of UAE foreign aid. A total of 12 UAE donor organizations provided AED 11.78 billion (US \$3.21 billion) in support of 66 projects in Egypt, accounting for 52.0 per cent of total UAE foreign aid in 2014.

## UAE Assistance to Egypt (2014) 11,778.21 AED million

In 2014, for the second consecutive year, Egypt was the top recipient country for UAE foreign aid, with 52 percent of the total or AED 11.78 billion (US \$3.21 billion), through 12 UAE donors for the implementation of 66 development projects.

As in 2013, the UAE Government funded the largest single project to Egypt in 2014; to provide financial assistance to cover Egypt's petroleum needs from January to March. Designed to help ensure that the nation is able to maintain its economy, industry, trade and transportation.

Additional projects supported by the UAE Government included the construction of 50,000 housing units with infrastructure, 25 metallic wheat silos with a total capacity of 1.5 million tons, 479 security barriers for railway crossings, 100 schools and 78 clinics. The UAE Government also provided power supply to 70 villages and 159 power distribution stations, as well as completing sanitation infrastructure networks for 151 villages and providing 600 public transport passenger buses and 100,000 cattle.

ADFD projects included the construction of the Banha electrical power station, refurbishment of 8,000

residential units in the Naser complex, the New Valley Project, also known as the Al Dahra agricultural Co-Toshka, which consists of building a system of canals to carry water from Lake Nasser to irrigate the western desert of Egypt, and the Sheikh Zayed canal. The Banha electric power station is a multi-year project that began in 2011, and is designed to reinforce the Egyptian economy through the production of 750 megawatts of electricity to help to meet the increasing demand on electricity and the expected rise in power load in the Middle Delta region.

Of the total funds disbursed to Egypt, commodity aid was the largest sector, based on the financial assistance to cover Egypt's petroleum needs, to the amount of AED 6.90 billion (US \$1.88 billion). The second largest sector was infrastructure development, based on the construction of 50,000 new housing units, AED 2.56 billion (US \$696.4 million). The third largest sector was AED 1.41 billion (US \$384.8 million) spent in the agriculture sector for wheat silos, the purchase of 100,000 head of cattle, and the New Valley Project. The entirety of UAE foreign aid to Egypt was implemented bilaterally.

Egypt has the largest population in North Africa, at 84.6 million people, and is the third largest on the African continent, behind Nigeria and Ethiopia. It is predicted that Egypt's population will grow by a further 12 million over the next ten years, leading Egypt's cities to expand by an extra 700,000 every year until 2020.

Over the past decade, the number of households has risen by 33 per cent, while the average household size has fallen from an estimated 5.3 people per household in 1990 to 4.2 in 2012. A total of 95 per cent of Egypt's population lives in less than four per cent of Egypt's total land areas, namely in the Nile Valley and Delta. Most of the population is under 15 years of age and more than one half is under the age of 25. These demographics suggest a positive long-term growth dynamic, but a strain on social services, in particular the education system, labour market and social services.

# JORDAN

While Jordan received a substantial portion of humanitarian assistance as support for the Syrian refugees, as described in the Syria Crisis section, they were also a large recipient country for development aid and charity programs, receiving AED 1.35 billion (US \$367.0 million), or 6.4 per cent of total UAE aid, for development and charity programs.

The largest single project, by the UAE Government via the Abu Dhabi Department of Finance, was budget support provided to the government of Jordan, disbursed as a deposit transfer to the Central Bank. ADFD was the second largest donor, supporting 11 projects, including: road expansions, a storage complex for petroleum derivatives, as well as the construction of hospitals, schools

and dams. ADFD also provided for renewable energy and wildlife conservation projects.

All of Jordan's aid was disbursed via bilateral channels. Directly implemented projects received the overwhelming majority of the aid, while contributions to national NGOs and civil society institutions received a small portion.

# MOROCCO

Morocco was another significant beneficiary of UAE foreign aid in 2014, receiving 8.3 per cent of total UAE aid, or AED 1.87 billion (US \$509.8 million).

Building the Sheikh Khalifa Bin Zayed Al Nahyan hospital in Morocco, funded by Khalifa Bin Zayed Al Nahyan Foundation. (Source: Khalifa Bin Zayed Al Nahyan Foundation)

## UAE Assistance to Morocco (2014)

### 1,872.64 AED million

The Abu Dhabi Fund for Development (ADFD) was the largest donor to Morocco this year, providing AED 1.63 billion (US \$444.0 million) for 28 projects across the country. ADFD provided housing units in a number of cities, including: Marrakesh, Tangier, Tetoun, Meknes, Casablanca and Fez Pullman. ADFD also developed and rehabilitated the Casablanca port and railway station and built a high-speed train from Tangier to Casablanca.

The Khalifa Bin Zayed Al Nahyan Foundation was the second largest donor, conducting two major health

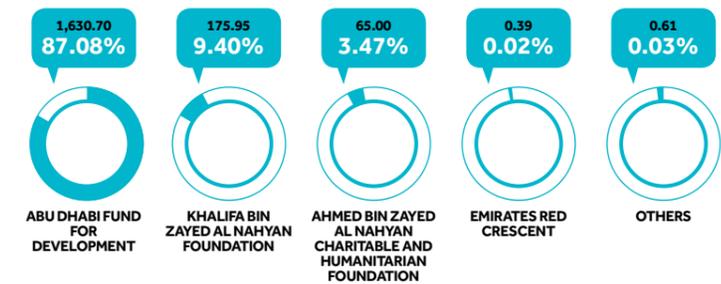

sector projects for AED 175.9 million (US \$47.9 million). The largest was the construction of the Sheikh Khalifa bin Zayed Al Nahyan Hospital in Casablanca, which specializes in emergencies and coronary heart disease. The other project funded a mobile medical unit in the north. Ahmed Bin Zayed Al Nahyan Charitable and Humanitarian Foundation was the third largest donor, providing AED 65.0 million (US \$17.7 million) for the medical equipment for the aforementioned hospital.

All of Morocco's aid was disbursed via bilateral channels, with directly implemented projects receiving the overwhelming majority of the aid and contributions to national NGOs and civil society institutions receiving a small portion. The vast majority of assistance to Morocco was development assistance, while charity assistance funded a number of Ramadan programs and Haj pilgrims. Morocco received no humanitarian assistance from the UAE in 2014.

## UAE Assistance to Syrian (2014) 1,475.07 AED million

In 2014, the UAE provided AED 1.55 billion (US \$422.3 million) in humanitarian funding for IDPs inside Syria, as well as for Syrian refugees in neighboring countries.

UAE donor entities spent AED 249.0 million (US \$67.8 million) on humanitarian projects inside Syria, constituting 16.1 per cent of UAE aid for the Syria crisis, while projects supporting Syrian refugees in neighbouring countries received a total of AED 1.30 billion (US \$354.5 million). The largest project within Syria was a contribution from the UAE Government of AED 57.3 million (US \$15.6 million) to the Syria Recovery Trust, which provides basic lifesaving supplies such as water, energy, medical care and a secure supply of food. ADFD provided

food assistance to Syrian Internally Displaced Persons (IDPs), as well as to UNRWA for Palestinian refugees residing in Syria. In addition to this, ADFD funded a project that supports nutrition for children less than five years of age and pregnant and lactating women inside Syria.

Projects supporting Syrian refugees in Jordan received 82.0 per cent of the total UAE assistance for the Syria crisis, or AED 1.27 billion (US \$346.3 million) for a total of 76 projects. The primary assistance to Syrian refugees in Jordan came jointly from the Government of the United Arab Emirates and the Abu Dhabi Department of Finance for operations, administration and logistic costs in refugee camps, as well as for food and medical relief.

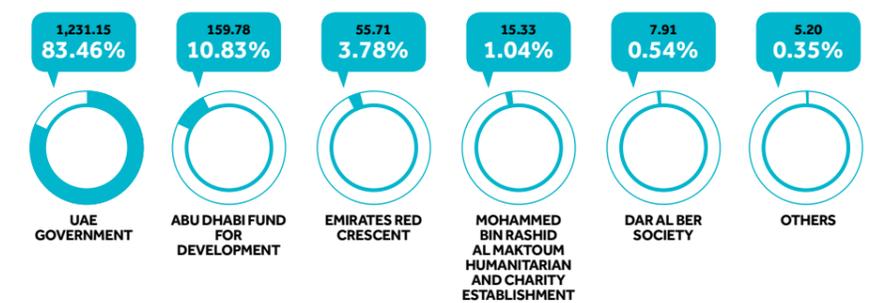

The remaining 74 projects provided for by the Emirates Red Crescent, the Abu Dhabi Fund for Development, the Sharjah Charity Association and the Ahmed Bin Zayed Al Nahyan Charitable and Humanitarian Foundation, all revolved around the creation, provision and improvement of Syrian refugee camps in Jordan.

Projects supporting Syrian refugees in Lebanon received AED 22.1 million (US \$6.0 million) in total humanitarian funding from UAE donor entities. The Mohammed Bin Rashid Al Maktoum Humanitarian and Charity Establishment funded the largest of these projects. Additionally, the Emirates Red Crescent provided relief to Syrian refugees in Arsal, Lebanon.

# PALESTINE

As in previous years, Palestine remained a top five recipient of UAE foreign aid. In 2014, the UAE provided AED 458.7 million (US \$124.9 million), or 2.0 per cent of total UAE aid, to Palestine.

## UAE Assistance to Palestine (2014)

# 458.73 AEDmillion

The Emirates Red Crescent (ERC) provided 66.2 per cent of the total UAE assistance to Palestine this year, AED 303.5 million (US \$82.6 million). The largest project involved rebuilding housing within the Gaza Strip, as well as completing the construction of a number of primary schools, universities and water wells. The Khalifa Bin Zayed Al Nahyan Foundation provided AED 67.5 million (US \$18.4 million) or 14.7 per cent of UAE assistance to Palestine. Khalifa Foundation projects involved constructing a mosque in the West Bank, a radio station, a hospital, and Iftar programs. The Dar Al Ber Society, which accounted for 2.2

per cent of UAE aid to Palestine or AED 10.0 million (US \$2.7 million), provided charity support for orphans, as well as for wells, mosques, and Iftar programs.

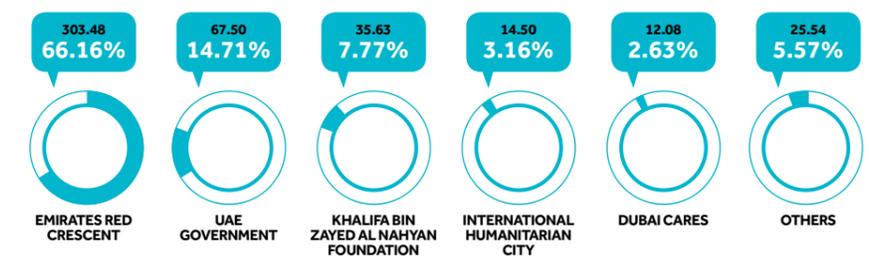

In 2014, the UAE provided foreign aid to Palestine for projects in 11 sectors. The top sectors were humanitarian aid and emergency relief, which received AED 172.8 million (US \$47.0 million), education, which received AED 141.2 million (US \$38.4 million), and infrastructure and development, which received AED 72.4 million (US \$19.7 million). Projects in development received the majority of UAE foreign aid to

Palestine, 55.9 per cent or AED 256.3 million (US \$69.8 million), while 37.7 per cent went to humanitarian relief, and 6.5 per cent went to charity projects. Bilateral projects received 92.7 per cent of UAE aid to Palestine or AED 425.4 million (US \$115.8 million), while multilateral channels were used for the remaining 7.3 per cent of funds. The Palestinian Authority received just over half of the aid extended as bilateral support, while direct project implementation received 78.8 per cent and contributions to national NGOs and civil society institutions received 9.9 per cent.

# PAKISTAN

The Pakistan Assistance Program (PAP) was the largest UAE donor to Pakistan in 2014, providing AED 108.4 million (US \$29.5 million) for 13 projects. The projects included continued construction of the UAE hospital in Islamabad, a Polio vaccination campaign to immunize over 13 million children throughout Pakistan, as well as widespread humanitarian food aid.

On 12 January 2011, the UAE Pakistan Assistance Program (PAP) was launched in order to provide assistance to Pakistan by developing

infrastructure to mitigate the impact of natural disasters. The UAE PAP has developed a comprehensive development plan that takes into account the harsh geography and the rough weather conditions of the region, while focusing on four main areas of social development: health, education, water and infrastructure.

The Khalifa Foundation was the second-largest UAE donor to Pakistan, providing AED 96.3 million (US \$26.2 million) for seven projects that focused on building schools,

mosques, hospitals and health centres, as well as providing food aid.

The third-largest donor was ADFD, which provided AED 86.5 million (US \$23.5 million) for three projects across Pakistan, including the construction of the Makin-Miranshah road in North Waziristan Agency, which connects inhabitants of three cities and two towns, the educational colleges projects, as well as the construction of the Sheikh Zayed International Academy.

## UAE Assistance to Pakistan (2014) 370.62 AED million

### Monitoring & Evaluation in Pakistan

In June, the MICAD Monitoring & Evaluation (M&E) team made a field visit to Pakistan in order to observe the performance and measure the impact of the projects undertaken by the Pakistan Assistance Program (PAP). Using a project log frame, the performance and impact of the observed projects was measured according to the OECD/DAC's Quality Standards for Development Projects Evaluation as well as the MICAD Project Performance and Impact documents. The team reviewed two projects that were still being implemented, both hospitals, and three completed projects: two bridges and a paramedical training institute.

The Sheikh Khalifa Bin Zayed Al Nahyan Hospital, based in Saidu

Shafiq in the SWAT district of Khyber Pakhtunkhwa Province, aims to improve health services for mothers and children. Although the project is still being implemented and it is too early to definitively measure impact, the hospital received an initial score of 94.4 per cent. The UAE Pakistani Hospital, based in Rawalpindi in the Pothohar region of northern Punjab, aims to provide medical care and treatment to more than two million Pakistanis every year by performing over 50 surgical operations every day.

Completed projects include the Sheikh Zayed Bin Sultan Al Nahyan Bridge, which connects 15 towns and 45 villages in the Swat Valley. The bridge is 448 metres long, 10.7 metres wide and 10 metres high and serves around 500,000 people in the Khyber Pakhtunkhwa province. The new bridge has the capacity to carry 4,000 cars per

day across two reserved lanes, as well as pedestrians in separate, designated lanes.

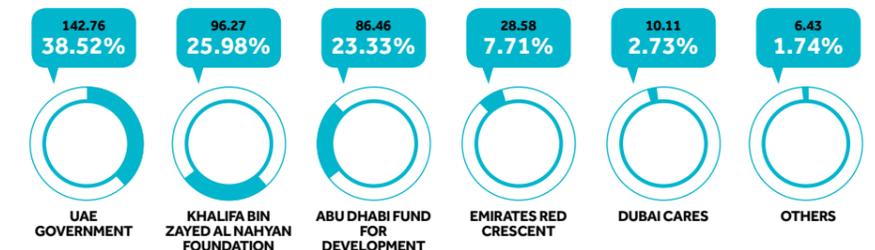

The performance level of the bridge was assessed at 95 per cent and has shown evidence of promoting access to trade, education and tourism for the 500,000 beneficiaries. The Sheikh Khalifa Bin Zayed Al Nahyan Bridge, also in the SWAT valley, provides for 70,000 people and 5,000 vehicles daily, and also scored a performance rate of 95 per cent.

The Pakistan Paramedical Training Institute based in Saidu Sharif, Khyber Pakhtunkhwa in the SWAT valley will matriculate 500 paramedical staff annually, with 50 per cent female students. This project scored a 90 per cent performance rating.

# AFGHANISTAN

In 2014, the UAE reaffirmed its long-standing support to Afghanistan as six UAE donor organizations disbursed a total of AED 312.0 million (US \$84.9 million). ADFD was the largest donor by far, contributing AED 297.2 million (US \$80.9 million) for six projects across the country, including the construction of 4,000 housing units and a number

of roads in Kabul and beyond. In addition to this, ADFD channelled funding for three humanitarian projects, in coordination with the UAE Humanitarian Committee. The second largest donor to Afghanistan was the Emirates Red Crescent, which contributed AED 6.1 million (US \$1.7 million). Their primary contribution was to assist with the relief effort in

the wake of the large-scale mudslides in Badakhshan. In addition to this, the ERC provided for well construction, mosques and Ramadan programs. The third-largest donor was the Al Rahma Charity Association, which provided AED 3.2 million (US \$0.9 million) for charity programs sponsoring orphans, providing wells, mosques and Ramadan programs.

# YEMEN

The largest UAE Donor to Yemen in 2014 was the Emirates Red Crescent, which provided AED 118.8 million (US \$32.3 million). The largest project involved the construction of the Sheikh Khalifa City; other significant projects included the provision of mosques, wells and schools. ADFD was the second largest UAE donor to Yemen, providing AED 88.6 million (US \$24.1 million) for a social

development fund, the second phase of a project to develop roads through the country, rehabilitation of the Aden hotel, and construction of three dams, including the Hassan dam, which is considered a strategic project to boost the agriculture industry. The third largest donor, the Khalifa Foundation, provided food vouchers in eight key provinces, doctors' salaries at the Khalifa bin

Zayed Al Nahyan Hospital in Socotra Island, and transport for conflict-affected people with special needs, with a total value of AED 17.6 million (US \$4.8 million). Another notable project was sponsored by the Noor Dubai eye camp, which distributed over 1,300 sets of glasses and ocular medicine and conducted over 10,000 screenings and nearly 1,000 ocular operations.

# SOMALIA

The UAE continued to provide foreign assistance to Somalia in 2014, totalling AED 130.9 million (US \$35.6 million). The Khalifa Foundation was the top UAE donor to Somalia in 2014, providing AED 76.2 million (US \$20.7 million). The foundation's largest project, amounting to AED 59.5 million (US \$16.2 million), provided

food aid to over 500,000 families affected by the humanitarian crisis. The Khalifa Foundation also provided hospitals in Berbera and Hrjessea and dug water wells throughout the country. Dar Al Ber Society was the second largest UAE donor entity to provide support to Somalia, giving AED 23.5 million (US \$6.4 million),

primarily for charity programs providing mosques, wells and support to orphans. Another large donor was the Mohammed Bin Rashid Establishment, which provided humanitarian relief to victims to the Horn of Africa drought and famine.

# TUNISIA

Tunisia received AED 109.0 million (US \$29.7 million) from five UAE donor entities in 2014, with Abu Dhabi Fund for Development providing the largest share, with AED 69.2 million (US \$18.8 million) for three projects, including general program assistance to the government, technical assistance to support the Arab Group for National

Democracy, based in Tunisia, and the construction of the Searat Dam. The Khalifa Foundation was the second-largest UAE donor entity in Tunisia, providing AED 38.2 million (US \$10.4 million) for humanitarian assistance during the lethal cold wave. Humanitarian supplies provided included: food parcels,

blankets, medical equipment and ambulances. The third largest donor was the Emirates Red Crescent, which primarily conducted charitable programs, in addition to providing a number of wheelchairs to children with special needs.

# IRAQ

Iraq received AED 85.1 million (US \$23.2 million) from eight UAE donor entities in 2014, primarily as support for Internally Displaced Persons (IDPs). The Khalifa Foundation was the largest donor for humanitarian programs that provided AED 60.9 million (US \$16.6 million) of food aid for 500,000 IDPs in the

governorates of Erbil and the Dohuk Kurdistan Region. The Emirates Red Crescent was the second largest donor, with contributions for IDPs totalling AED 13.1 million (US \$3.6 million). The Mohammed Bin Rashid Establishment was the third largest donor, contributing AED 3.8 million (US \$1.0 million)

towards the construction of a school and a medical centre for IDPs. ADFD provided a single program with a value of AED 3.7 million (US \$1.0 million) to empower children and youth through education and livelihood opportunities.

# TOP SECTORS OF ASSISTANCE

## COMMODITY AID

The commodity aid sector received the largest portion of UAE foreign aid in 2014, with 30.5 per cent or AED 6.91 billion (US \$1.88 billion). The vast majority of these funds were directed towards the commodities import support subsector, extended by the UAE Government via the Abu Dhabi Department of Finance, to help Egypt cover its petroleum needs from January to March 2014. This project was the second part of a commodity aid project that began in 2013. The second largest subsector was food aid and food security programs.

UAE foreign assistance to commodity aid also factors into the UAE's role in the global effort to meet the needs of the world's poorest people by achieving the Millennium Development Goals (MDGs). The MDGs are a set of eight strategic tasks identified by the international community to rid the world of poverty, discrimination and violence by the end of 2015. Support to commodity aid is classified under a single global development goal MDG 1: Eradicating Extreme Poverty and Hunger. Of the total UAE aid that went to achieving the MDGs, 31.4 per cent went to MDG 1: Eradicating Extreme Poverty and Hunger through the provision of commodity aid to countries in need of development assistance.

### EXHIBIT 17 BY SUBSECTOR (in AED millions and as % of total, 2014)

Grand Total

**6,912.69**

## INFRASTRUCTURE DEVELOPMENT

The infrastructure development sector received 16.6 per cent of the total UAE foreign aid in 2014, or AED 3.76 billion (US \$1.02 billion). Urban development and management was the largest subsector, with a total of 15 projects completed in Egypt, Morocco, Afghanistan, Yemen, and Palestine. The largest project in this subsector, financed by the Abu Dhabi Department of Finance, involved the construction of 50,000 new housing units with infrastructure for the Naser complex in Egypt. Other large projects, funded by ADFD, included the construction of more than 100,000 housing units throughout various locations in Morocco, including Marrakech, Tangier, Tetoun, Meknes, Fez Pullman and Casablanca. Other projects installed social housing in Afghanistan, Yemen, and Palestine.

The second largest subsector, rural development. Once such project provided humanitarian assistance in the form of housing & infrastructure projects in Tsunami-affected areas of the Maldives.

UAE infrastructure development aid benefitted MDG 1: Eradicating Extreme Poverty and Hunger through the subsector of rural development, while programs in the subsector of urban development and management contributed to MDG 7: Ensuring Environmental Sustainability.

### EXHIBIT 18 BY SUBSECTOR (in AED millions and as % of total, 2014)

Grand Total

**3,755.40**

## GENERAL PROGRAM ASSISTANCE

The general program assistance sector received 14.6 per cent of the total UAE foreign aid in 2014, or AED 3.30 billion (US \$899.0 million). The vast majority of funds to this sector went to 24 projects in the general budget support subsector through bilateral assistance to partner governments in the form of balance of payments. As well as providing annual assessed contributions to various multilateral organizations, ADFD also supported the budget of the Kingdom of Jordan via improvements made to the Central Bank and supported public benefits organizations in Tunisia.

The second largest subsector of general program assistance was sector budget support, which includes funding to multilateral organizations for multi-country projects as well as annual assessed contributions.

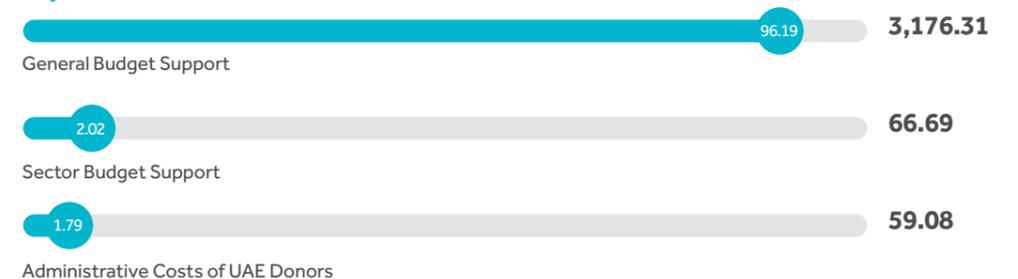

The third largest subsector was administrative costs of UAE donor entities, which include: the administrative costs of the Emirates Red Crescent West Bank office and the annual budget of the regional branch of the Al Maktoum Foundation.

UAE foreign aid to general program assistance played a role in fulfilling a number of MDGs, including, MGD 1: Eradicate Extreme Poverty and Hunger, MDG 2: Achieve Universal Primary Education, MDG 3: Promote Gender Equality, MDG 4: Reduce Child Mortality, MGD 5: Improve Maternal Health, MDG 7: Ensure Environmental Sustainability and MDG 8: Develop Global Partnerships for Development. In total this composed 14.7per cent of UAE aid to MDG-related programs.

### EXHIBIT 19 BY SUBSECTOR (in AED millions and as % of total, 2014)

Grand Total

**3,302.07**

## HUMANITARIAN AID AND EMERGENCY RELIEF

The humanitarian aid and emergency relief sector received 10.7 per cent of the total UAE foreign aid in 2014, with AED 2.42 billion (US \$658.8 million). The largest subsector was multi-sector aid, which included 79 projects that delivered various relief items and services to humanitarian emergencies in the region and around the world. This included provision of supplies to Syrian refugee camps in Jordan, Lebanon, and Iraqi Kurdistan, responding to the floods in Malaysia, Bosnia and in the Solomon Islands, reconstruction in Gaza, responding to the cold wave in Tunisia and Lebanon, relief provided for the large-scale mudslides in Badakhshan, Afghanistan, and a contribution to the Syria Recovery Trust Fund.

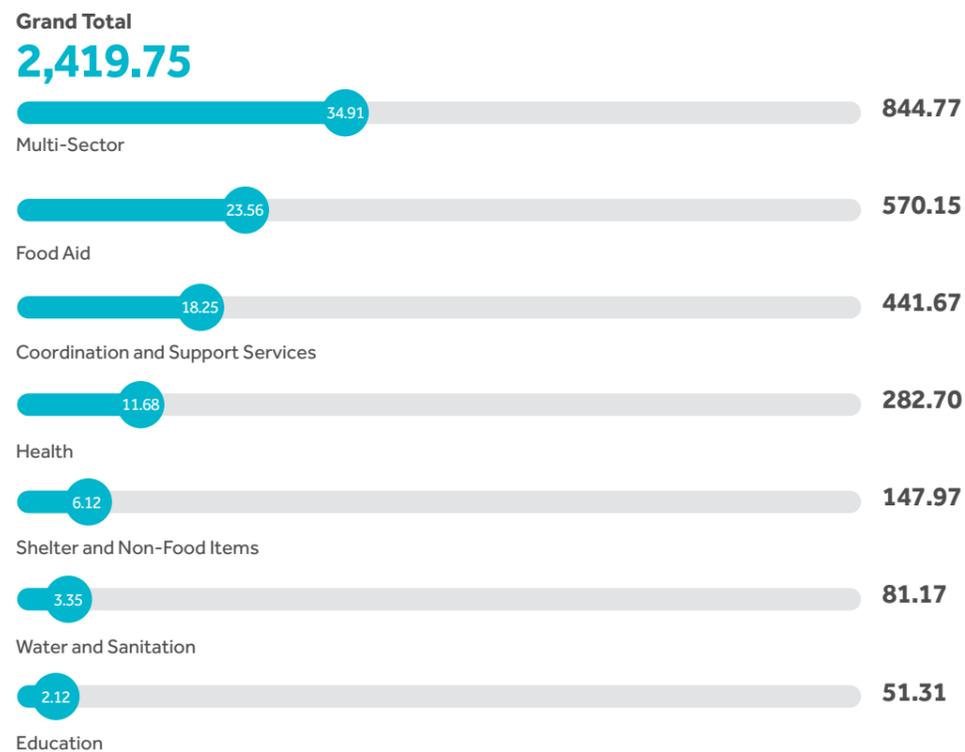

The second largest subsector of UAE humanitarian aid and emergency relief was food aid. This included 37 different projects delivering food aid to beneficiaries in Jordan, Somalia, Syria, Yemen, Pakistan, Palestine, Indonesia, Lebanon, Malawi, Libya, Chad, Myanmar and a multi-country program supported by the World Food Program (WFP) in Africa.

Coordination and support services were the third largest subsector, delivering 26 projects. This included an ADFD program that funded the operations, administration and logistic costs of refugee camps for Syrian refugees in Jordan. It also included a number of grants from ADFD for the UAE Humanitarian Committee for the provision of relief to Afghanistan. Another program, also funded by ADFD, strengthened humanitarian coordination and advocacy inside Syria.

UAE humanitarian aid played its part in achieving the following MDGs: MDG 1: Eradicate Extreme Poverty and Hunger, MDG 2: Achieve Universal Primary Education, MDG 4: Reduce Child Mortality, MDG 6: Combat HIV/AIDS Malaria and Other Diseases, MDG 7: Ensure Environmental Sustainability, and MDG 8: Develop Global Partnership for Development. This composed 11.0 per cent of total UAE aid to MDGs.

### EXHIBIT 20

#### BY SUBSECTOR (in AED millions and as % of total, 2014)

## AGRICULTURE

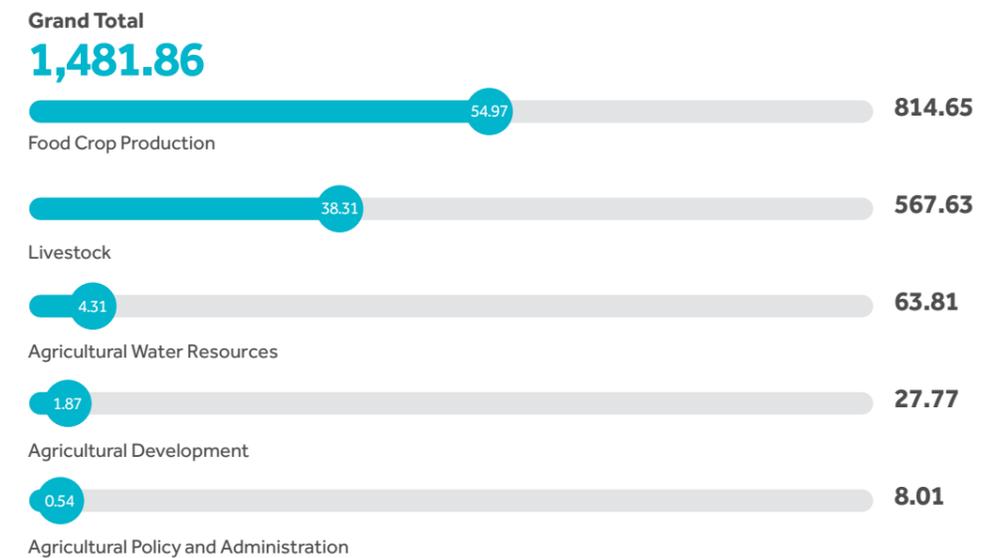

The agriculture sector received 6.5 per cent of total UAE foreign aid in 2014, with AED 1.48 billion (US \$403.4 million). The largest subsector consisted of two projects in food crop production, the largest of which involved the construction of 25 metallic wheat silos, with a total capacity of 1.5 million tons provided to Egypt by the Abu Dhabi Department of Finance. The second project, funded by the Al Maktoum Foundation, supported the cultivation and production of wheat in Atbara, Sudan. The second largest subsector consisted of one project, in which the Abu Dhabi Department of Finance financed the purchase of 100,000 cattle for Egypt.

Highlights of the third largest subsector, agricultural water resources included the rehabilitation of irrigation projects in Jordan, as well as three dam projects, all financed by ADFD. The Timkit Province Dam project in Morocco is a 56 meter dam with the capacity to hold approximately 14 million cubic meters of water, while the Hassan Dam in Yemen is one of Yemen's key strategic projects that will boost agricultural production from cereals, fruits, vegetables, fodder and animal wealth to help meet local market demand and increase Yemen's exports. The dam project in Jordan aims to support the Jordanian economy and fulfil the increasing demand for both drinking and irrigation water by building a number of dams across the country. Additionally, the Emirates Red Crescent provided wells to farmers in Palestine, as well as generators for irrigation in Somalia.

All UAE agricultural aid went toward achieving MDG1: Eradicate Extreme Poverty and Hunger and this made up 6.7 per cent of total UAE aid to MDGs.

### EXHIBIT 21

#### BY SUBSECTOR (in AED millions and as % of total, 2014)

## OTHER SECTORS SUPPORTING MDGS

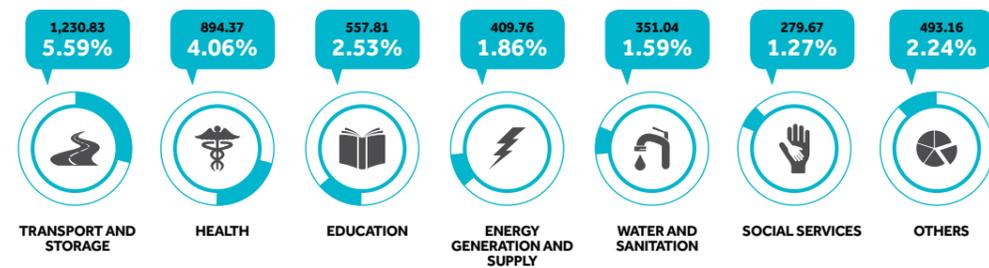

UAE foreign aid to the top five sectors listed above composed 80.9 per cent of the total amount of UAE aid provided to MDG-related programs. The additional 19.1 per cent of MDG-linked UAE aid went to 13 sectors that provided assistance to all eight MDGs.

# OFFICIAL DEVELOPMENT ASSISTANCE

Sheikh Zayed Bridge in Swat, Pakistan, funded by the UAE, and implemented by the UAE Pakistan Assistance Program (UAE-PAP).  
(Source: UAE Pakistan Assistance Program)

The United Nations General Assembly passed a resolution urging donor countries to contribute at least 0.7 per cent of their gross national income to developing countries. The Organisation for Economic Co-operation and Development - Development Assistance Committee (OECD-DAC) reports each year on how donors have performed against this target, issuing tables that show the ratio of Official Development Assistance (ODA) to Gross National Income (GNI) for each donor country.

The UAE has submitted an annual report to the Organisation for Economic Co-operation and Development's Development Assistance Committee (OECD DAC) summarizing UAE foreign aid activities that can be recorded as ODA for the past six years. At the time of going to print, the 2014 ODA figures are provisional.

Official Development Assistance is defined as flows to countries and territories on the DAC List of ODA Recipients and to multilateral development institutions which are: (1) provided by official agencies, including state and local governments, or by their executive agencies; and (2) each transaction which is (a) administered with the promotion of the economic development and welfare of developing countries as its main objective; and (b) concessional in character and conveys a grant element of at least 25 per cent (calculated at a rate of discount of 10 per cent).

The DAC List of ODA Recipients for 2014 flows is divided into four categories: (1) The Least Developed Countries (LDCs), (2) Other Low Income Countries (LICs), which have a per capita GNI of less than US \$1045 in 2013, (3) Lower Middle Income Countries and Territories (LMICs), which have a per capita GNI between US \$1046 and US \$4125, and (4) Upper Middle Income Countries and Territories (UMICs), which have a per capita GNI between US \$4126 and US \$12,745.

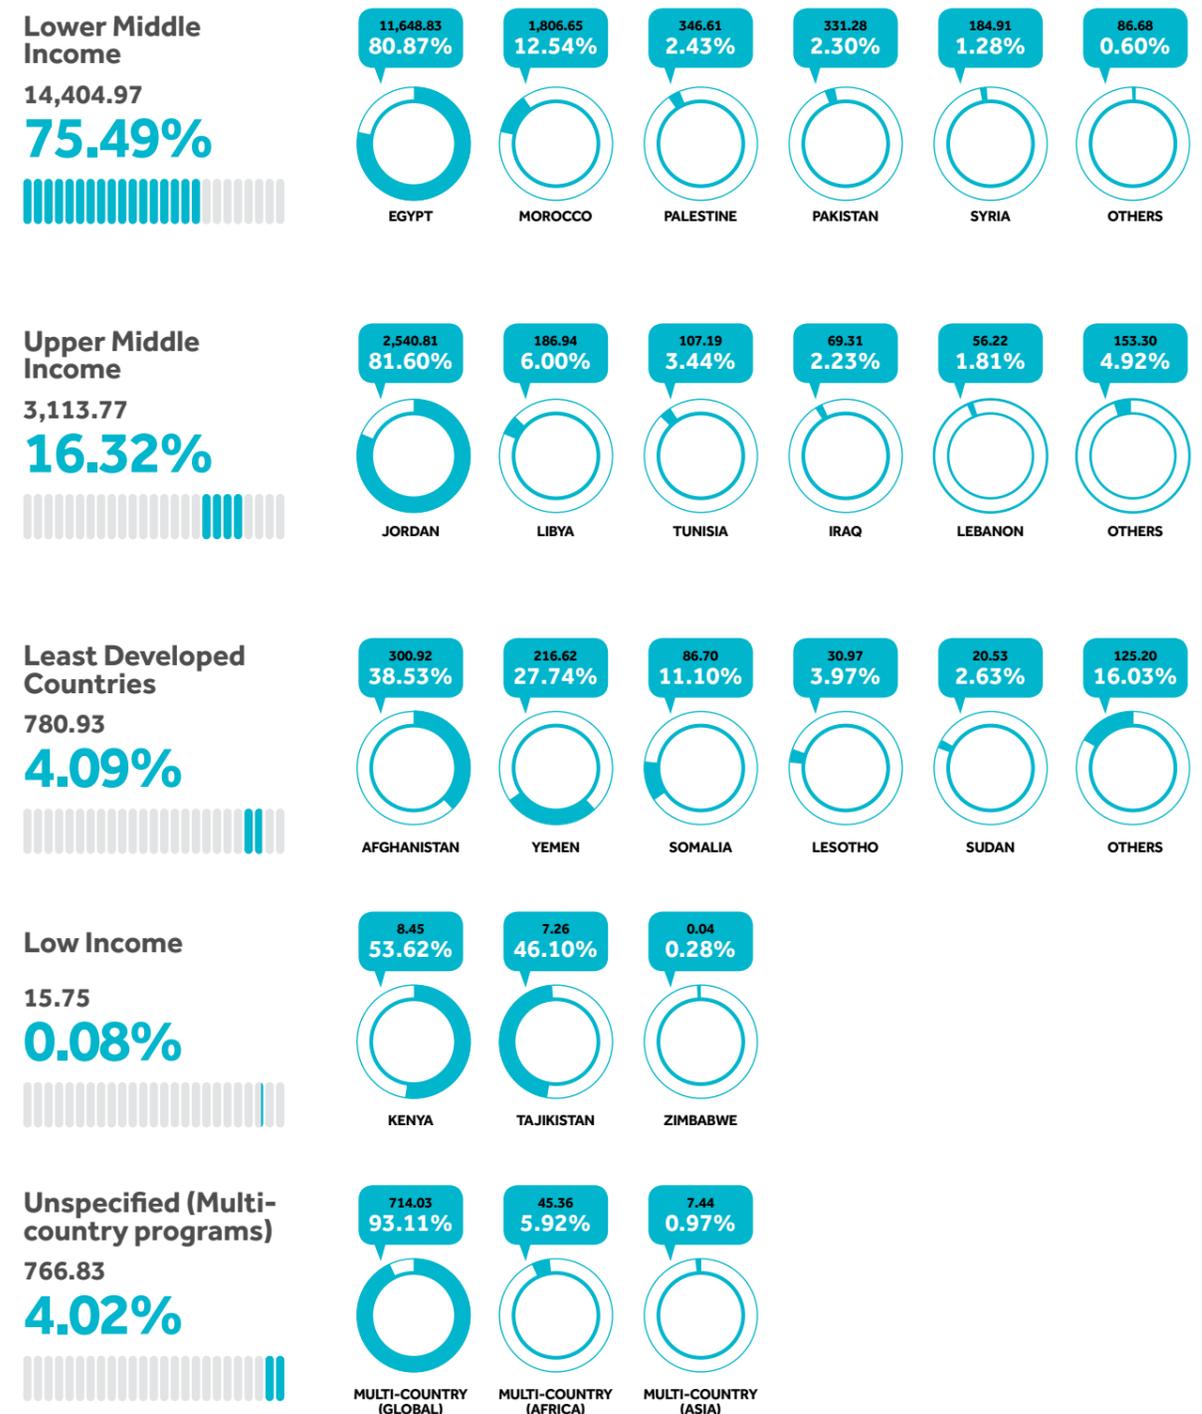

## UAE ODA IN NUMBERS

In 2014, the UAE disbursed an estimated AED 19.08 billion (US \$5.20 billion) in gross ODA. The net ODA, which subtracts any repayment against loans provided in previous years, is estimated at AED 18.67 billion (US \$5.05 billion) and amounts to a provisionally estimated 1.26 per cent of the UAE gross national income (GNI). For the second year in a row, this figure is substantially above the 0.7 ODA/GNI, which is the global benchmark determined by the United Nations General Assembly (UNGA).

## INCOME-LEVEL GROUPS

Of the total UAE ODA disbursed in 2014, the majority, 75.5 per cent or AED 14.40 billion (US \$3.92 billion), went to Lower Middle Income Countries (LMICs). Egypt, Morocco, and Palestine were the top LMIC recipient countries. Upper Middle Income Countries (UMICs) received 16.3 per cent of the total UAE foreign aid in 2014, or AED 3.10 billion (US \$847.7 million). Jordan, Libya, and Tunisia were the top UMICs. Least Developed Countries (LDCs) received 4.1 per cent, or AED 780.9 million (US \$212.6 million), with Afghanistan, Yemen, and Somalia being the top LDC recipients. Multi-country programs received 4.0 per cent or AED 766.8 million (US \$208.8 million) and Low Income Countries (LICs) received less than one per cent of total UAE ODA in 2014.

## EXHIBIT 23 UAE ODA BY INCOME-LEVEL GROUP (in AED millions and as % of total, 2014)

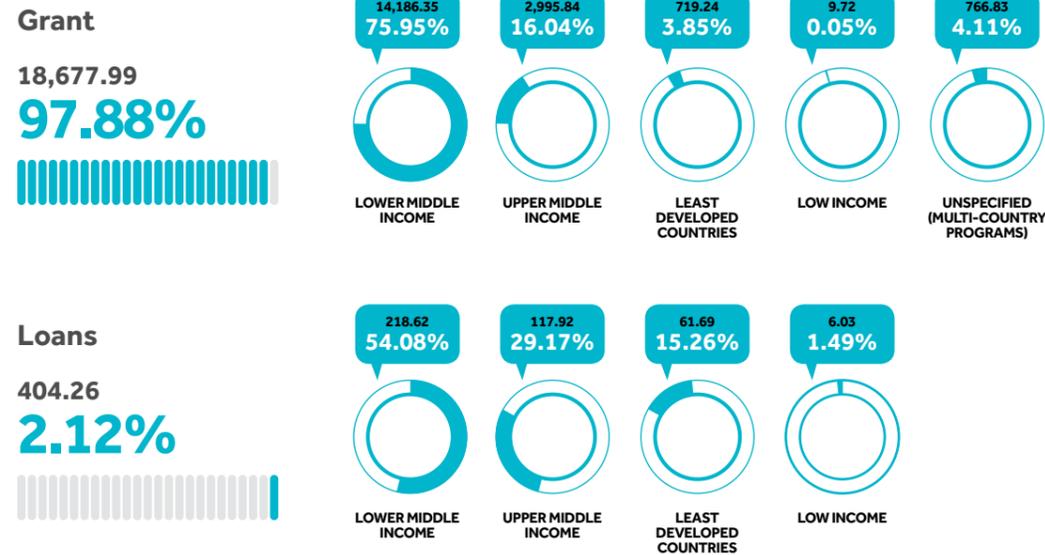

## DISTRIBUTION BY FUNDING TYPE

UAE ODA in 2014 came primarily in the form of grants, with 97.88 per cent of the total aid or AED 18.68 billion (US \$5.11 billion) being provided to recipients. The remaining 2.21 per cent was disbursed via loans, AED 404.26 million (US \$110.1 million).

## UAE MULTILATERAL ASSISTANCE

In 2014 the UAE ODA for multilateral assistance was AED 841.9 million (US \$249.2 million) or 4.1 per cent, with core contributions as the subset that received the majority of this funding.

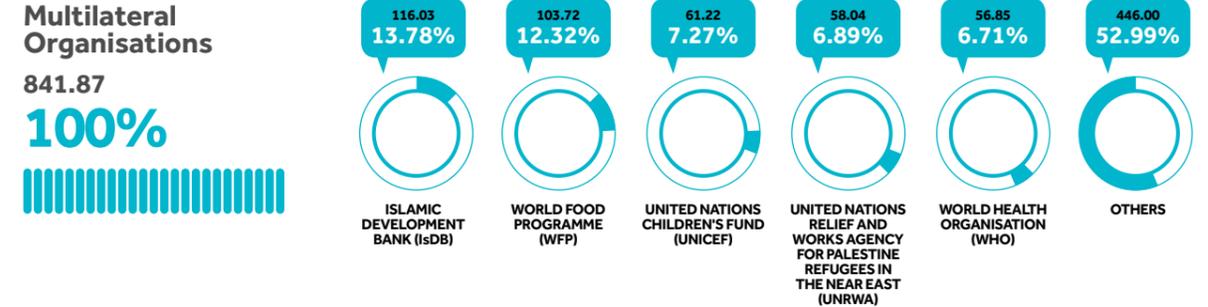

### EXHIBIT 26 UAE BILATERAL AND MULTILATERAL ODA BY TYPE OF ASSISTANCE

(in AED millions and as % of total, 2014)

### EXHIBIT 27 TOP RECIPIENT MULTILATERAL ORGANISATIONS OF UAE ODA

(in AED millions and as % of total, 2014)

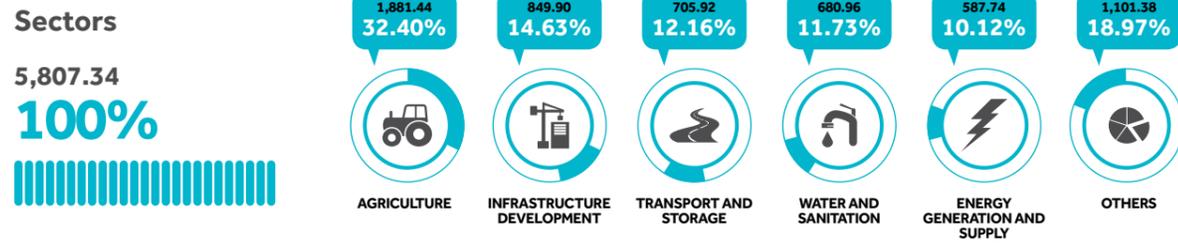

## COMMITMENTS

In 2014, the UAE made commitments to 19 ODA-eligible countries, with Morocco and Egypt at the top of the list. Two UAE donor entities were responsible for the entirety of UAE ODA commitments in 2014 - the Abu Dhabi Fund for Development and the Abu Dhabi Department of Finance, making commitments for projects across 11 sectors. Agriculture, infrastructure, and transport and storage were the leading sectors to receive commitments for future funding.

## FEATURE 2

# The UAE becomes the first Participant Member in the OECD Development Assistance Committee (DAC)

Vaccinating a girl against polio in the province of Khyber Pakhtunkhwa in Pakistan.  
(Source: The UAE Pakistan Assistance Program)

On 1 July 2014 the UAE became the first-ever participant member of the Organisation for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC). The DAC said, "As a major provider of concessional finance for development, the UAE has much to contribute to the DAC's discussions on key development issues. Integrating the UAE's experience will enhance the quality of the DAC's work and further strengthen its influence in shaping the international development debate, including on the post-2015 development agenda. The DAC, as the leading international forum for providers of development co-operation, also has much to offer the UAE."

When accepting the OECD's invitation to become a Participant of the DAC, the UAE's Minister of International Cooperation and Development, H.E. Sheikha Lubna Bint Khalid Al Qasimi, expressed her country's enthusiasm to work jointly towards development effectiveness. The DAC Chair, Erik Solheim, welcomed the news and stressed that the initiative by the UAE to take part in the DAC "will improve global development co-operation." The UAE is the first and only Participant Member of the DAC and, as such, can take part in all non-confidential meetings of the Committee, including its High-Level and Senior-Level Meetings, and the meetings of the DAC subsidiary bodies. In 2014, the UAE participated in the following DAC events: DAC Senior Level and High Level Meetings, peer reviews of Germany, meetings of the Working Party on Development Statistics (WPSTAT), and the DAC Network on Environment and Development Co-operation (ENVIRONET).

### WHAT IS THE OECD?

The mission of the OECD is to promote policies that will improve the economic and social wellbeing of people around the world. The OECD provides a forum in which governments work together to share experiences and seek solutions to common global problems. The organization works with governments to understand what drives economic, social and environmental change. They measure productivity and global flows of trade and investment and analyse and compare data to predict future trends. The OECD sets international standards on issues ranging from agriculture and tax to the safety of chemicals. The OECD also looks at issues affecting daily life, like country averages for amount paid in taxes and social security to public school systems to pension systems.

In the meeting of the OECD Council at Ministerial Level, which took place on 6-7 May 2014 in Paris, France, Mr. Angel Gurría, Secretary-General of the OECD outlined the strategic orientations of the organization, "the OECD will continue to support Member and Partner Countries in

addressing the four main legacies of the global financial crisis – low growth, high unemployment, declining trust and rising inequality – by providing timely, targeted, evidence-based advice on the design and implementation of "better policies for better lives". To effectively fulfil this role, the OECD needs to continuously upgrade its analytical framework and to better incorporate into its recommendations the inter-linkages, trade-offs and synergies that are the defining feature of the current policy landscape."

### WHAT IS THE DAC?

The Development Assistance Committee (DAC) is a subsidiary body of the OECD which serves as "the venue and voice" of the world's major bilateral donors. Since its creation in 1960 – alongside that of the OECD – the DAC has been responsible for an array of achievements in co-ordinating donor policies. This very involvement has led to an evolution whereby, over recent years, the DAC has broadened the scope of its work beyond its own membership. Most importantly, the Paris Declaration on Aid Effectiveness (March 2005) has been endorsed by over 100 countries. The DAC also serves as an international hub for the subsequent monitoring process, which is underway in over 30 developing countries. At the same time, the DAC is reaching out to non-DAC or "emerging donors". This new feature in DAC work was only able to materialise because of ever-closer DAC collaboration with the World Bank and UNDP.

Enabling effective development through inclusive partnerships for development, the DAC helps ensure better lives for people in the developing world by:

- Understanding development finance - Monitoring and sharing statistics as well as information on the architecture of official development assistance (ODA) and other flows of development finance to help ensure transparency and effectiveness.
- Strengthening aid delivery - By evaluating development programmes for aid effectiveness and conducting peer reviews in development co-operation to sharpen processes and management.
- Improving development policy - By drawing on knowledge and experiences across the world and advising on diverse development policy issues, including: aid for trade, environment, gender equality, governance and peace, and poverty reduction.
- Building partnerships for development beyond the DAC to leverage collective know-how and facilitate innovative and integrated approaches to development.

# THE MILLENNIUM DEVELOPMENT GOALS (MDGs)

In 2000, the leaders of the world made an unprecedented commitment: to eradicate extreme poverty and improve the health and welfare of the world's poorest people within 15 years. The year 2014 was a landmark year for global development as it marks the last year for the achievement of the MDGs, while at the same time witnessing significant progress in terms of developing the post-2015 development agenda and the Sustainable Development Goals (SDGs), the second generation of global development goals. The UAE was proud to have played a role in this process, in terms of contributing to the attainment of MDGs worldwide, as well as helping to formulate the new SDGs.

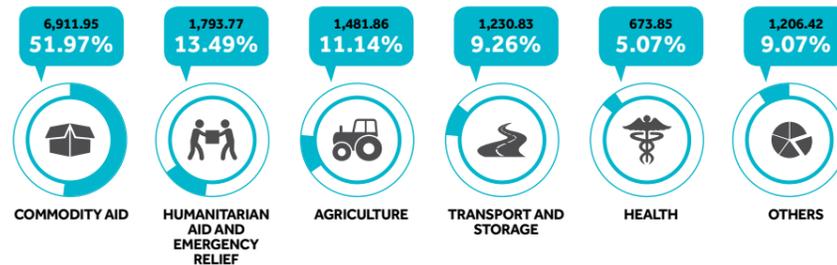

The exhibits below illustrate the UAE contributions to the eight MDGs.

## SECTION 5

# UAE Donors

## In 2014, 39 UAE donors

provided foreign assistance around the world.

This section examines foreign aid activities undertaken in 2014 by 39 UAE donor entities, listed by volume of aid.

This section outlines details of the foreign assistance given by each UAE donor entity, including recipient countries, sectors and the categories of assistance (development, humanitarian or charity). This section also illustrates how UAE donors disbursed their funds, separating them into six types: (i) bilateral assistance to governments; (ii) core contributions to multilateral organizations; (iii) other contributions to multilateral organizations; (iv) contributions to international NGOs; (v) contributions to national NGOs and civil society institutions; and (vi) direct project implementation.

A complete list of the countries assisted by UAE donor entities, by amount, can be found in Appendix 1.

# UAE GOVERNMENT

A total of 18 UAE Governmental entities, including federal ministries and local departments, funded foreign aid projects in 2014. For organizational purposes, this report groups these entities together as one donor, labeled "UAE Government." Each government ministry or department has its own area of focus and preferred methods of implementation. As a group, UAE government entities form the largest UAE donor, having provided AED 14.72 billion (US \$4.01 billion), or 65.0 per cent of total UAE foreign aid in 2014.

# ABU DHABI FUND FOR DEVELOPMENT

The Abu Dhabi Fund for Development (ADFD) was established in 1971 to provide aid to developing countries in the form of concessionary loans and grants on behalf of the Abu Dhabi Government. ADFD aims to raise living standards and tackle poverty in the developing world by utilizing a capital of AED 16 billion.

ADFD plays a supervisory role during the implementation of projects, overseeing both project development and delivery. ADFD operates with the objectives to: (1) help developing countries achieve sustainable economic development and alleviate poverty and (2) support regional and international development initiatives.

# EMIRATES RED CRESCENT

The Emirates Red Crescent (ERC) was founded in 1983, and became a member of the International Federation of the Red Cross and Red Crescent Societies (IFRC) in 1986. The ERC works to support the official authorities in peacetime and wartime, in accordance with the provisions of Article 26 of the First Geneva Convention of 1949. In times of peace, the ERC organizes awareness programs and provides humanitarian assistance to vulnerable beneficiaries and victims of accidents and disasters. In times of war, the ERC is mandated to transfer and treat the wounded, assist prisoners within the scope of the Geneva Conventions, provide first aid and relief to victims, protect civilians, shelter the displaced and homeless, search for missing persons and reunite separated families.

## FEATURE 3

# Formation of the UAE Committee for the Coordination of Foreign Humanitarian Aid (CCHA)

Distributing food aid, via WFP, for Syrian refugees in Zaatari camp in Jordan.  
(Source: World Food Program)

In 2014 the UAE Cabinet formed the UAE Committee for the Coordination of Foreign Humanitarian Aid (CCHA). The Committee's primary focus is to promote UAE humanitarian contributions for the victims of humanitarian catastrophes and crises around the world, as well as to bolster the UAE stature in the international humanitarian arena.

- UAE Armed Forces
- Emirates Red Crescent
- Khalifa Bin Zayed Al Nahyan Foundation
- Mohammed Bin Rashid Al Maktoum Charity and Humanitarian Establishment.

The key roles of the committee are to monitor global humanitarian needs, support development of UAE humanitarian response systems, oversee and coordinate UAE humanitarian response. In addition to formulating rapid response plans for UAE humanitarian response to crises and catastrophes, the CCHA takes decisions and proposes actions for a number of issues relevant to UAE humanitarian response, including: mechanisms for enhancing coordination and integration between UAE humanitarian donors and international organizations participating in multilateral humanitarian response.

In 2014, the CCHA provided rapid humanitarian response to a number of humanitarian emergencies across the world. This included response to the Syrian Crisis, including the provision of humanitarian supplies to victims of the cold wave that affected Syrian refugees across the region; the Ebola Virus Disease in West Africa in Liberia, Sierra Leone and Guinea; and the situation in Northern Iraq, which included a proposal for the establishment of the Emirates Camp for the internally displaced people in Erbil.

The Committee, chaired by H.E. Sheikha Lubna, Minister of International Cooperation and Development, is composed of high-level representatives from the following organizations:

In terms of multilateral coordination, the CCHA have coordinated with the United Nations organizations. Multilateral discussions also included strategic discussions on how the UAE can better coordinate with International Organizations in the future.

- Ministry of Presidential Affairs (MoPA)
- Ministry of Foreign Affairs (MoFA)
- Ministry of International Cooperation and Development (MICAD)

The Ministry of International Co-operation and Development (MICAD) serves as the secretariat of the Committee, preparing the agenda, presenting information for deliberation, facilitating discussions on planned responses and reporting activities.

# DUBAI CHARITY ASSOCIATION

Dubai Charity Association was established in 1994 with the purpose of providing charity and humanitarian aid inside and outside the UAE. Dubai Charity Association vision is to lead the way of providing humanitarian services, and fulfill both donors and recipients' needs through the humanitarian and charity work, in addition to ensuring the highest income through donation mobilization and deliver it to people in need or use it to fund various charity projects inside and outside the UAE in response to humanitarian emergencies based on the rightful bases.

# DUBAI CARES

Dubai Cares was launched in September 2007 as a philanthropic organization working to provide children in developing countries with access to quality primary education, regardless of gender, ethnicity or religion. The organization's mission is realized through integrated programs that eliminate the underlying obstacles that prevent children from going to school and learning. This is achieved through school feeding, deworming activities, early childhood education, curriculum development, literacy and numeracy through teacher training, school infrastructure as well as Water, Sanitation and Hygiene in schools. Gender equality is a cross cutting theme in all Dubai Cares' education programs with an approach that aims to secure equal access for boys and girls to safe learning environments with adequate facilities, materials and academic support from qualified teachers and engaged communities. Central to Dubai Cares' approach is a focus on monitoring, evaluation and learning. Through the design and support of catalytic and innovative programs, Dubai Cares seeks to test alternative models and hypothesis that can increase the impact of interventions and contribute to the global body of evidence-based best practices.

# INTERNATIONAL HUMANITARIAN CITY

International Humanitarian City (IHC) was established in 2003 as a leading global humanitarian logistics hub connecting east and west, empowering its members to create lasting change in the lives of people in need. Based in Dubai, the IHC has grown into a major humanitarian logistics hub, hosting nine United Nations agencies and 41 international humanitarian organizations and commercial companies. IHC is a non-profit, independent free zone authority mandated by the Government of Dubai to facilitate international humanitarian aid by (1) supplying leading humanitarian actors with world-class logistics infrastructure, value-added services and administrative support, (2) providing strengthened aid responses and (3) facilitating coordination and collaboration among all aid providers. The IHC's capabilities and strategic location — within eight hours by air to two-thirds of the world's population — have helped deliver assistance in some of the worst humanitarian crises of the past decade, including the 2004 tsunami in Southeast Asia, the recurring drought in the Horn of Africa, civil unrest in Afghanistan and Darfur, and the 2010 earthquake in Haiti. Also, IHC has been heavily engaged in the emergency responses to Syria and Philippines.

## FEATURE 4

# The UAE's Growing Momentum for Renewable Energy: Afghanistan Solar Project

Project PV solar home systems in Afghanistan, funded by Abu Dhabi Development Fund. (Source: Abu Dhabi Future Energy Company (MASDAR))

Access to clean energy is essential for human wellbeing and a key factor in reducing poverty and promoting development, while at the same time ensuring long-term environmental sustainability. Energy was not included in the Millennium Development Goals; however, access to energy that is clean, sustainable and reliable is critical to achieving several of these goals. The Sustainable Development Goals include an explicit reference to "ensure access to affordable, reliable, sustainable, and modern energy for all".

Years ago the UAE adopted a pro-sustainable energy stance to augment our traditional energy resources. Momentum in the UAE surrounding sustainable energy for all continues to grow, even nine years after opening Abu Dhabi Future Energy Co. (MASDAR), a world-renowned commercial renewable-energy company based in Abu Dhabi and five years after opening the International Renewable Energy Agency (IRENA) global headquarters in Abu Dhabi. IRENA is an intergovernmental organization to promote adoption and sustainable use of renewable energy. In addition to hosting IRENA, Abu Dhabi Sustainability Week, a global forum uniting thought leaders, policy makers and investors to address the challenges of renewable energy and sustainable development is convened on a yearly basis.

Renewable energy is not a right of the upper and middle classes alone, if 'sustainability for all,' is to be genuinely achieved, and then we need to find ways for impoverished people across the globe to be able to access renewable energies. The UAE has provided various projects, including a project that gave solar power to Afghanistan. Masdar installed solar home systems in more than two dozen villages around Camp Robinson within the Helmand Province in southern Afghanistan. The project is enhancing the lives of more than 3,000 people who had no previous access to electricity. The installations include 545 houses and 55 public facilities such as schools, mosques and clinics. The rooftop solar photovoltaic panels and battery storage also power basic appliances like refrigerators, televisions, fans and lights. In addition to providing the equipment, Masdar has ensured the sustainability of this project by training Afghan users how to operate and maintain their solar systems.

### QUICK FACTS

- Project area: 27 villages
- Equipment: 600 stand-alone solar systems

- Beneficiaries: 3000 people, 545 houses, 55 public facilities

# MOHAMED BIN ZAYED SPECIES CONSERVATION FUND

The Mohamed Bin Zayed Species Conservation Fund is a philanthropic endowment in Abu Dhabi that was established in 2009 to provide targeted grants to individual species conservation initiatives worldwide. It also seeks to recognize leaders in the field of species conservation. Grants are awarded to initiatives that meet the Fund's criteria.

SECTION 6

# Trends of UAE Foreign Aid over the past 5 Years

The past five years have seen a seven-fold increase in UAE foreign aid.

The UAE published its first Foreign Aid Report in 2010, documenting the foreign aid flows of UAE donor entities in 2009. Since the publication of the second edition of the UAE Foreign Aid Report in 2011, the report has analysed aid flows over a period of two to three years. Building on this customary comparative analysis, this section, which is new to this report, provides a broader analysis based on trends of UAE foreign aid over the past five years, ranging from 2010 – 2014.

# OVERVIEW OF AID 2010–2014

## TOTAL DISBURSEMENTS

The years 2010 to 2014 saw a dramatic increase in total volume of foreign aid that the UAE provided throughout the world, from AED 2.80 billion (US \$762.9 million) in 2010, to AED 22.64 billion (US \$6.16 billion) in 2014, a seven-fold increase. Notably, 2012 was the only year of the five-year period in which overall aid dropped. This drop occurred primarily due to the higher level of funds committed toward a lower level of disbursement during that year. Aid flows, however, soared again in 2013 with a 340.47 per cent increase over 2012, when the UAE began their financial support to Egypt. The year to follow, 2014, did not disappoint, as aid continued to increase, although in the single digits, with a 4.71 per cent increase over 2013.

## OFFICIAL DEVELOPMENT ASSISTANCE (ODA)

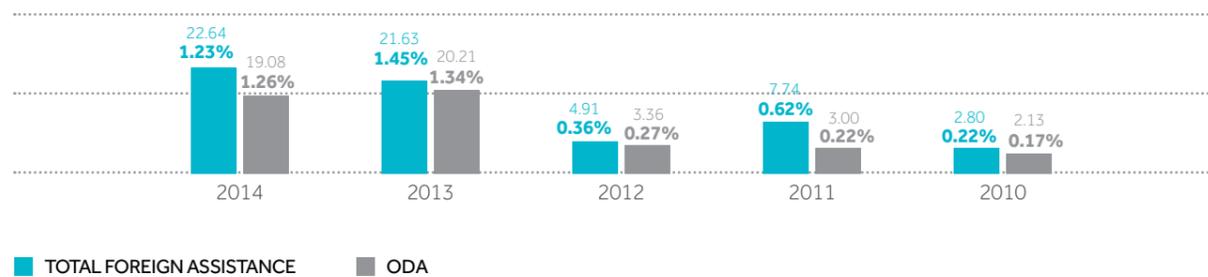

### ODA disbursements per GNI

The UAE entered the global donor spotlight 2013 when the OECD reported that UAE ODA/GNI reached 1.34 per cent, far superseding the benchmark recommended by the United Nations General Assembly (UNGA) of 0.7 per cent. Only three years previously, in 2010, UAE ODA/GNI was 0.17 per cent.

In 2014, the UAE was able to maintain its ODA/GNI at well above the UNGA threshold of 0.70 per cent, reporting an estimated ratio of 1.26 per cent. These figures are driven by the high level of disbursement against total commitments (of AED 24.40 billion) to Egypt in both 2013 and 2014.

## EXHIBIT 52 TOTAL DISBURSEMENTS OF FOREIGN AID

(in AED billions and as % of GNI)

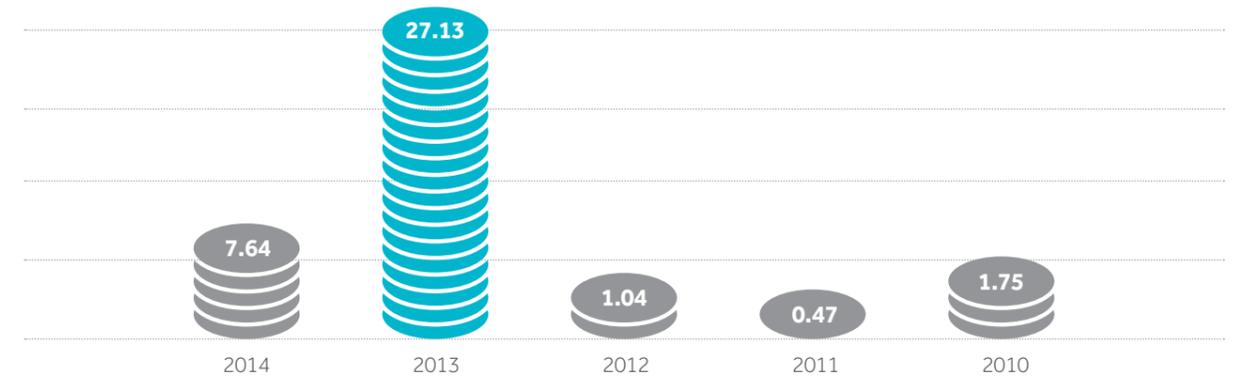

### Commitments

Since 2010, the UAE has signed commitments to development projects in over 40 ODA-eligible partner countries in Africa, Asia, and the Pacific.

The levels of UAE ODA commitment saw massive fluctuations over the last five years, registering their lowest in 2011, with a total of AED 467.2 million, but soared again the following two years to reach its pinnacle, in 2013 with a total of AED 27.13 billion, primarily due to the large commitment of AED 22.76 billion to Egypt.

## SECTORS

The most significant trend over the past five years with regard to sector allocations was that the general program assistance sector consistently received the largest absolute value every year from 2010 – 2014. The UAE has prioritized giving foreign aid in the form of general program assistance because it allows use of local partner country systems, while addressing recipient country's respective development priorities, as well as building the capacity of the recipient government institutions and reducing any associated transaction costs. Contributions to the general program assistance sector reached a peak in 2013 with AED 11.34 billion, (US \$ 3.09 billion) largely due to grants intended to stabilize the Egyptian economy. Commodity Aid was the second largest sector of assistance, receiving a total of AED 10.55 billion, mainly directed towards the commodities import support subsector, extended in support of Egypt to cover its petroleum needs including gasoline, diesel fuel, and liquefied natural gas; a project that began in 2013.

The third largest sector was infrastructure development, based on the UAE leveraging its identified comparative advantage in infrastructure, demonstrated in developing the country's own substantive infrastructure system. Humanitarian assistance was the fourth largest sector, based on the long-standing UAE imperative to provide lifesaving assistance to both crises and disasters in the region and beyond. In 2010, 2011 and 2012 humanitarian assistance was the second largest sector; however infrastructure development gained a windfall fall in 2013 and 2014, thus positioning it as an overall average in second position. Health was the fifth largest sector, which received a significant increase in funds to projects between 2011 and 2012, and was sustained in 2013 and 2014.

## EXHIBIT 55 TOP FIVE SECTORS

(in AED billions and as % of total)

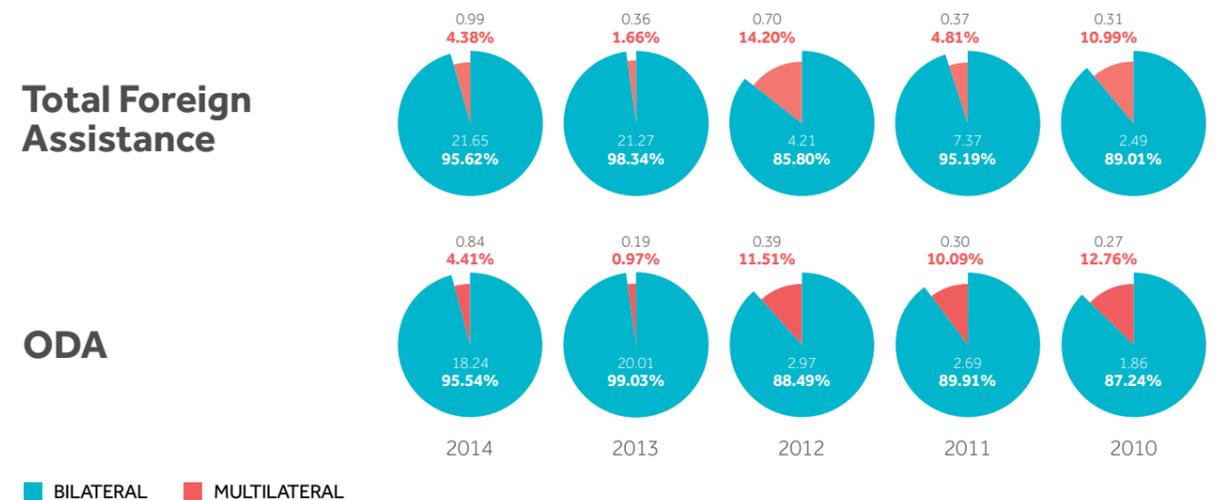

## BILATERAL AND MULTILATERAL

Percentage allocation of UAE foreign aid to bilateral projects versus multilateral varied from year to year, with multilaterals receiving the highest percentage in 2012, 14.20 per cent of total UAE aid, and the lowest percentage in 2013, 1.66 per cent. In 2014, aid to multilaterals again increased, reaching 4.4 per cent or AED 991.2 million (US \$269.9 million).

## EXHIBIT 56 BILATERAL AND MULTILATERAL ASSISTANCE BY YEAR

(in AED billions and as % of total)

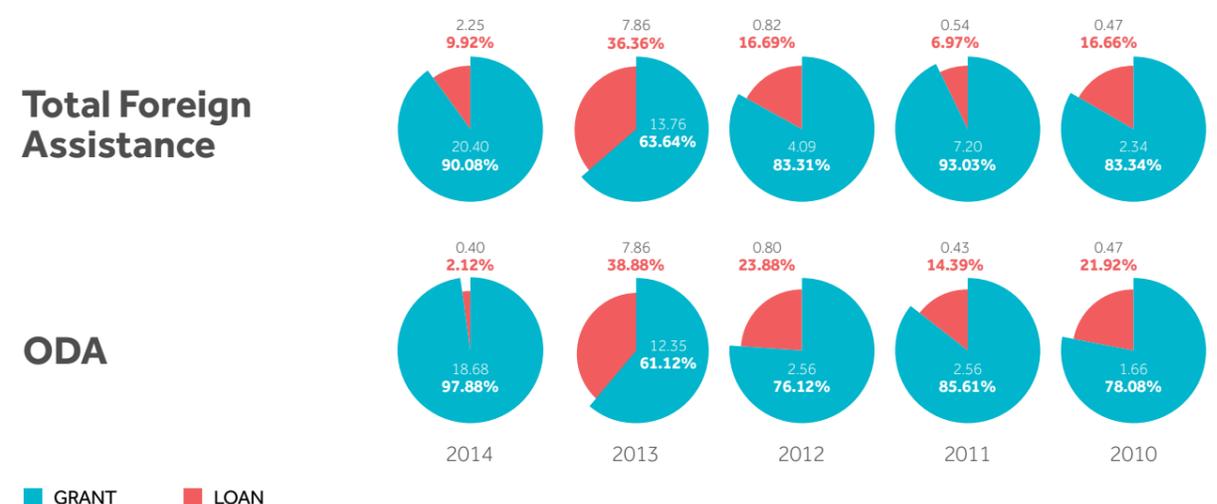

## GRANTS AND LOANS

The UAE generally delivers loans to its partner countries with softer terms on interest rate and maturity periods that are aligned to the concessionality characteristics set by the OECD-DAC. Over the past five years, nearly 80 per cent of the loans disbursed were concessional loans to Lower Middle Income Countries. Least Developed Countries received 6.7 per cent of the UAE's concessional loans. The remaining, marginally non-concessional loans were extended to partner countries in the upper-middle income level category.

**GEOGRAPHIC DISTRIBUTION**

**CONTINENTS AND REGIONS**

Asia and Africa are historically the largest continents to receive UAE foreign aid. This can be explained in terms of the geographic proximity of the UAE to both continents, as well as the levels of need. In 2010, 2011 and 2012, Asia received the most UAE aid, with 56.3 per cent of total UAE aid in 2010, 79.1 per cent in 2011 and 47.3 per cent in 2012. This trend shifted, however in 2013, with the assistance provided to Egypt, greatly increasing the proportion of UAE assistance going to Africa.

**Grand Total**

**EXHIBIT 60**  
**TOP FIVE REGIONS**  
(in AED billions)

**COUNTRIES**

In gross terms, the top recipient of UAE aid over five years was Egypt, receiving 48.6 per cent of UAE aid during this period. Jordan was the second largest recipient of UAE aid over a five-year period, with 6.8 per cent of total UAE aid from 2010 – 2014. Morocco was the third largest, with 4.2 per cent and Pakistan was the fourth largest recipient over a five-year period, with 3.1 per cent of total aid.

**EXHIBIT 61**  
**TOP FIVE COUNTRIES**  
(in AED billions)

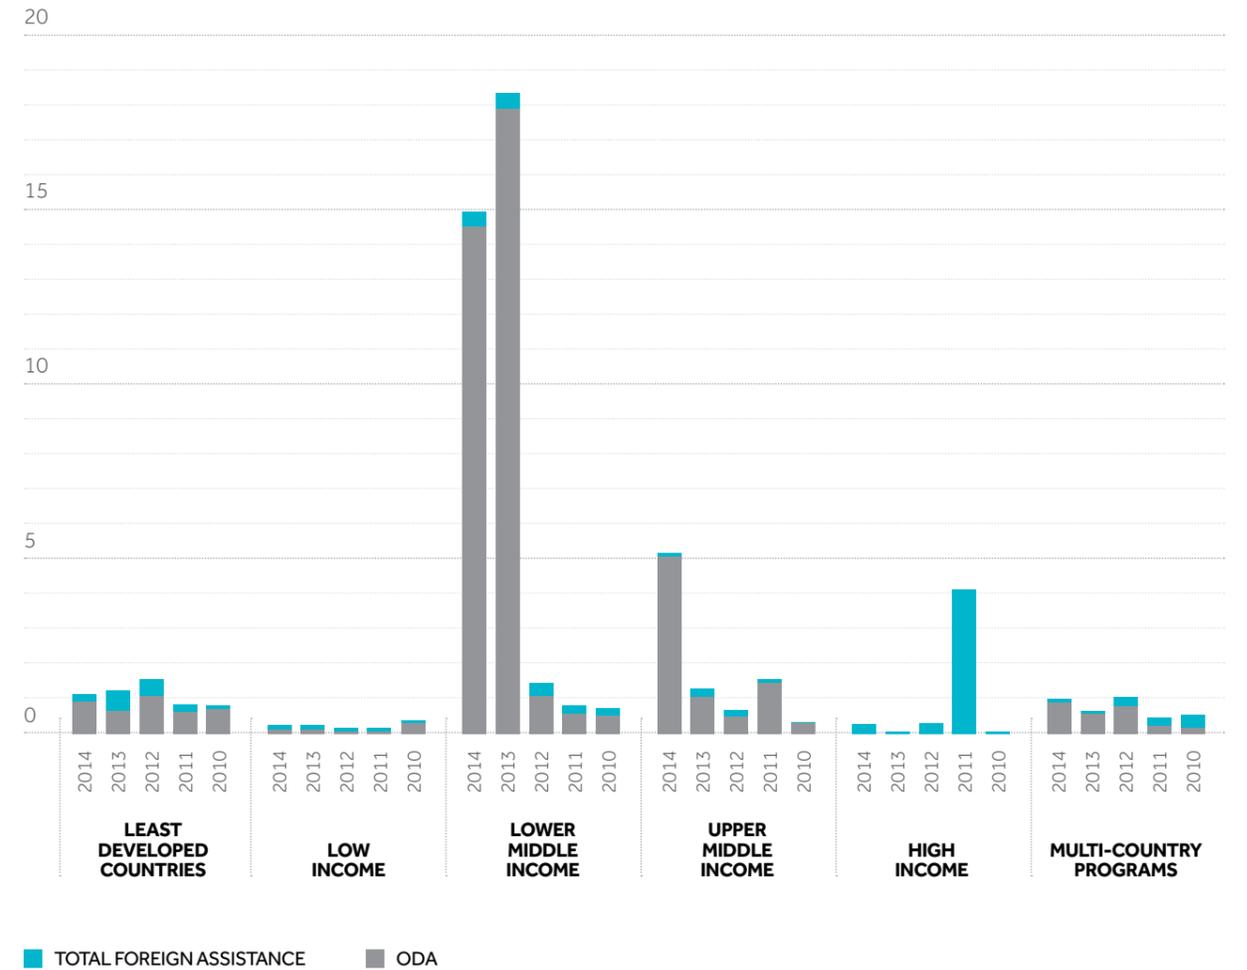

**INCOME LEVEL GROUPS**

The past five years have seen the UAE shift towards providing aid more consistently to countries at specific income levels. In 2010, Least Developed Countries (LDCs) were the top recipients with 30.5 per cent. These figures changed over the next year, following the graduation of several partner countries from upper-middle to high-income level. The years 2013 and 2014 saw a more consistent approach to UAE funding per recipient country income levels, as in both years, LMICs gained the most UAE aid, with 85 per cent in 2013 and 66.5 per cent in 2014.

A consistent pattern throughout is that the UAE provides funds to LDCs, which are often the recipient countries that have the highest levels of need, but not the corresponding amounts of foreign aid. Other donors often shy away from LDCs, as they are sometimes considered difficult operating environments. Through consistently providing foreign aid to LDCs, at rates higher than most other international donors, the UAE shows that it does not shy away from need merely because of difficult conditions.

**EXHIBIT 62**  
**AID DISTRIBUTION BY INCOME-LEVEL GROUPS**  
(in AED billions)

## RESPONSE TO HUMANITARIAN EMERGENCIES

With the exception of 2012, the total amount of aid provided by the UAE increased steadily year-over-year over this five-year period due to sharp increases in assistance in response to extraordinary needs in the region, for example: Syria, Libya and Yemen in 2013, flash floods in Pakistan in 2012-2014, and the crisis in Sahel countries.

### EXHIBIT 63 TOP FIVE UAE RESPONSE TO HUMANITARIAN EMERGENCIES

(in AED billions)

## LOOKING FORWARD

As UAE aid levels reached AED 22 billion in 2014, the forecast for future UAE aid expects to see aid levels stabilize, resulting in more long-term predictable aid targeted in larger amounts to fewer countries, which should result in increased aid effectiveness. It is projected that any increases will likely be in the single digits as UAE aid moves in the direction of being increasingly stable and predictable. General trends will see larger amounts of UAE aid going to fewer countries and programs, based on the identification of priority countries and sectors in line with regional stabilization and UAE comparative advantages. The largest question looming in the medium-term for UAE aid is: Will the UAE be able to improve the impact of its aid? In 2014, the UAE began the process of formalizing the UAE Foreign Aid policy and strategy, which will identify priority countries, sectors and initiatives, as well as detail a five-year foreign aid budget for the UAE, with the intended outcome of regularizing UAE foreign aid in the years and decades to come.

## FEATURE 5

# The Journey of UAE Foreign Aid

Dubai Cares' programs support educational initiatives as a way out of poverty.  
(Source: Dubai Cares)

Charitable giving and wealth sharing are core pillars of the UAE's identity and heritage. The UAE has been a provider of humanitarian and development assistance since its inception, in 1971. The Abu Dhabi Fund for Development was the first Emirati donor to enter the scene in 1971, as a leading national entity to provide aid to developing countries in the form of concessionary loans and administering grants on behalf of the Abu Dhabi Government. The total value of loans, grants and investments funded by ADFD and the Government of Abu Dhabi during the past four decades, reach almost AED 35 billion for 325 development projects in 59 countries around the world.<sup>1</sup> In 1983 the Emirates Red Crescent was the second significant actor to enter the UAE donor scene established on the principles of humanitarian non-alliance, neutrality, independence, voluntary nature, unity and universality.<sup>2</sup>

The Zayed Bin Sultan Al Nahyan Foundation was formed in 1992 and currently fulfils the vision of the late founder of the United Arab Emirates. In 1997 the Mohammed bin Rashid Al Maktoum Establishment was founded. In 2007, both the Khalifa Bin Zayed Al Nahyan Foundation (Khalifa Foundation) and Dubai Cares entered the UAE donorship scene, starting an influx of UAE donor entities, which is currently 39 in number.

As UAE generosity continued to grow in the decades following formation of the country, the UAE Government realized that UAE foreign aid could become more effective if it aligned with international standards and best practices. As such, in 2008 the Cabinet created the UAE Office for the Coordination of Foreign Aid (OCFA) as a commitment to improving the performance of its foreign aid sector. Specifically OCFA was set up to achieve four objectives: (1) document foreign aid flows, (2) improve the performance of UAE donors, (3) increase the effectiveness of UAE aid through coordination and (4) implement the UAE's obligation to transparency and accountability, and commitment to accurate accessible information.

OCFA achieved unprecedented accomplishments, thereby putting the UAE on the map for international foreign aid actors by mapping UAE donors and stakeholders providing foreign aid, documenting data from each donor's foreign aid programs and ensuring its comparability and interoperability with international reporting standards of the United Nations and OECD.

Based on OCFA's success, in 2013, the Office merged with the UAE Ministry of Foreign Trade, to become the UAE Ministry of International Cooperation and Development. The establishment of MICAD took UAE foreign aid to the next level by focusing on the following objectives: (1) propose policy priority areas for UAE foreign assistance; (2) raise awareness of the UAE's role as a major international donor; (3) enhance relations with bilateral donors; (4) accurately document UAE foreign aid; (5) evaluate the impact of aid programs; (6) build the capacity of UAE donors and (7) represent the UAE in regional and international development and humanitarian bodies.

Since establishing MICAD, the UAE foreign aid program has undergone significant developments and milestones. These accomplishments include: achieving 1.34 per cent Official Development Assistance per Gross National Income ratio (ODA/GNI) in 2013 and an estimated 1.26 per cent ODA/GNI in 2014, being named as the first ever participant member of the OECD Development Assistance Committee in July of 2014, and establishing the UAE Committee for the Coordination of Foreign Humanitarian Assistance in May 2014.

With these major milestones occurring in such short succession, it became clear that the time was right for the UAE to develop its foreign aid policy and strategy. In October of 2014, the UAE began the process of drafting a foreign aid policy & strategy, which is intended to be finalized before 2016. The UAE is aiming to achieve improved impact of foreign aid by developing the foreign aid policy and strategy. The policy and strategy will aim to accomplish a number of objectives, principally to regularize UAE foreign aid, so that forward expenditures will be consistent, reliable and effective; thus giving the opportunity for each dirham of UAE aid to achieve its maximum impact. Put simply, the more effective UAE aid becomes, the more lives are saved and improved.

The foreign aid policy and strategy aims to capture big ideas that will change the foreign aid landscape. As the policy/strategy is developed, central to the thinking is the challenge faced by the UAE as a growing donor: how to become not just a big donor in terms of ODA per GNI, but how to become an impactful donor and partner in the global development arena. The amount of aid we provide is important, but it is not as important as how we provide it.
